

Fluke U1500s High Voltage Differential Probe

主要特性

- Maximum voltage 1,000V ac rms continuous, 1,500V dc
- 4mm input terminals (primary)
- BNC output terminal (secondary)
- Includes BNC to 4mm banana plug on 1.6m lead
- 4 x AA alkaline cells, IEC LR6

产品概述: Fluke U1500s High Voltage Differential Probe

The Fluke U1500S 1,500V DC Voltage Sensor allows you to safely connect to DC bus bars at up to 1.5kV, connects to the instrument voltage input. The voltage can be scaled in the instrument to provide results in real units.

产品规格: Fluke U1500s High Voltage Differential Probe

Fluke. 让您的工作畅通无阻。
